Fig. 1. Positive affect, blue affect, stress, and life evaluation in relation to household income. Positive affect is the average of the fractions of the population reporting happiness, smiling, and enjoyment.

### High income improves evaluation of life but not emotional

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

PeerJ — the Journal of Life and Environmental Sciences is a peer-reviewed & Open Access journal publishing primary research and reviews in biology, life sciences, environmental sciences, and medicine. If you value thoughtful, constructive, rigorous review and want to publish quickly, our Journal Overview will help you assess if PeerJ is the right journal for your research team.

### PeerJ

Of the various modes of oscillation, our main interest is the first antisymmetric mode. This is because of two reasons: the first antisymmetric mode involves the largest amount of liquid mass movement, and as we will see in the following section, its frequency corresponds to the driving frequency (at least approximately).

Life insurance, pensions and healthcare. Actuarial science became a formal mathematical discipline in the late 17th century with the increased demand for long-term insurance coverage such as burial, life insurance, and annuities. These long term coverages required that money be set aside to pay future benefits, such as annuity and death benefits many years into the future.
