Organizational analysis or more commonly Industrial analysis is the process of reviewing the development, work environment, personnel, and operation of a business or another type of association. This review is often performed in response to crisis, but may also be carried out as part of a demonstration project, in the process of taking a program to scale, or in the course of regular operations.

Organizational Information Theory (OIT) is a communication theory, developed by Karl Weick, offering systemic insight into the processing and exchange of information within organizations and among its members. Unlike the past structure-centered theory, OIT focuses on the process of organizing in dynamic,

information-rich environments.
