2013/04/17. Here is an interview with Ron Hochreiter, Assistant Professor at WU Vienna University Economics and Business. In 25 words or less tell us what you do (using German words is cheating).

### Interview with a forced convert from Matlab to R - Burns

Data is a set of values of subjects with respect to qualitative or quantitative variables. Data and information are often used interchangeably; however data becomes information when it is viewed in context or in post-analysis. While the concept of data is commonly associated with scientific research, data is ...
