SinoGuide provides high quality and performance photo etching components for customers, further more, our high production capacity can also fulfill your high-volume orders and shorten the lead time.. SinoGuide is also a one-stop solution provider, we can also provide you value added service such plating, polishing, stamping, PVD coating etc.

Photo Chemical Etched Fine Metal Masks For Oled Displays

Nanoscience and Nanotechnology Letters (NNL) is a multidisciplinary peer-reviewed journal consolidating nanoscale fundamental and applied research activities in all disciplines of science, engineering and medicine to publish original short research articles as communications and letters of important new scientific and technological findings.

Nanoscience and Nanotechnology Letters

Blu-ray or Blu-ray Disc (BD) is a digital optical disc data storage format. It was designed to supersede the DVD format, and is capable of storing several hours of video in high-definition (HDTV 720p and 1080p) and ultra high-definition resolution ().The main application of Blu-ray is as a medium for video material such as feature films and for the physical distribution of video games for the ...

Blu-ray - Wikipedia

Nickel is a silvery-white metal with a slight golden tinge that takes a high polish. It is one of only four elements that are magnetic at or near room temperature, the others being iron, cobalt and gadolinium.Its Curie temperature is 355 Å°C (671 Å°F), meaning that bulk nickel is non-magnetic above this temperature. The unit cell of nickel is a face-centered cube with the lattice parameter of ...
